

ABIR

Developer & Innovator

Location: Dhaka, Bangladesh Email: abirxxdbrine2024@gmail.com Portfolio: beyondordinary.com

PROFILE SUMMARY

Passionate and driven 14-year-old developer dedicated to engineering modern web solutions and crafting pristine user interfaces. Highly motivated to master core engineering tools, deploy secure full-stack interactions, and contribute actively to open-source software environments. Focused on building responsive platforms that make a genuine positive impact.

KEY PROJECTS

Personal Portfolio & Admin System

2026

Lead Architect & Developer

- Designed and launched a completely responsive web portfolio utilizing dynamic semantic grids and fluid CSS micro-animations.
- Engineered a fully secure glassmorphic Admin Control Panel integrated natively with backend authentication networks.
- Built clean user experience components including validation feedback routines and interactive security protocols.

Open-Source Learning Platform

2025

Independent Developer

- Created modular introductory software guides and reference materials designed to simplify environment setups for programming novices.
- Managed continuous layout overhauls, updating interface responsive states across variable breakpoint resolutions.

EDUCATION

High School Academic Curriculum

Expected 2029

Dhaka, Bangladesh

Focusing intensely on computer studies, foundational mathematics, and logic structures. Supplementing core learning with advanced online certifications and practical engineering workflows.

TECHNICAL SKILLS

Frontend Development

HTML5 CSS3 / Grid / Flexbox

JavaScript (ES6+)

UI/UX Animation

Responsive Design

Backend & Architecture

Firebase Auth Database Config

API Integrations

Tools & Environments

Git / GitHub VS Code

DevTools Debugging

CORE FOCUS AREAS

- Secure Authentications
- Micro-interactions
- Clean Code Paradigms
- Community Mentorship

INTERESTS

Exploring dynamic software frameworks, asynchronous processing, modern security vectors, game design mechanics, and digital design layouts.
